YOUR

JEWELRY

Discover jewelry that is much more than just ornaments.
Decard is a manifesto of creative expression that will allow you
to express your individualism. Compose any geometric shapes
you desire, arranging the modular components
of the collection into unique compositions.

AT DECARD

You create Your dream product. Innovative 3D printing technology allows you to create any geometric shapes and unique compositions in lively colours to fulfil Your visions.

Your design,
Your vision,
no limits,
no compromises.

*Express
Yourself*

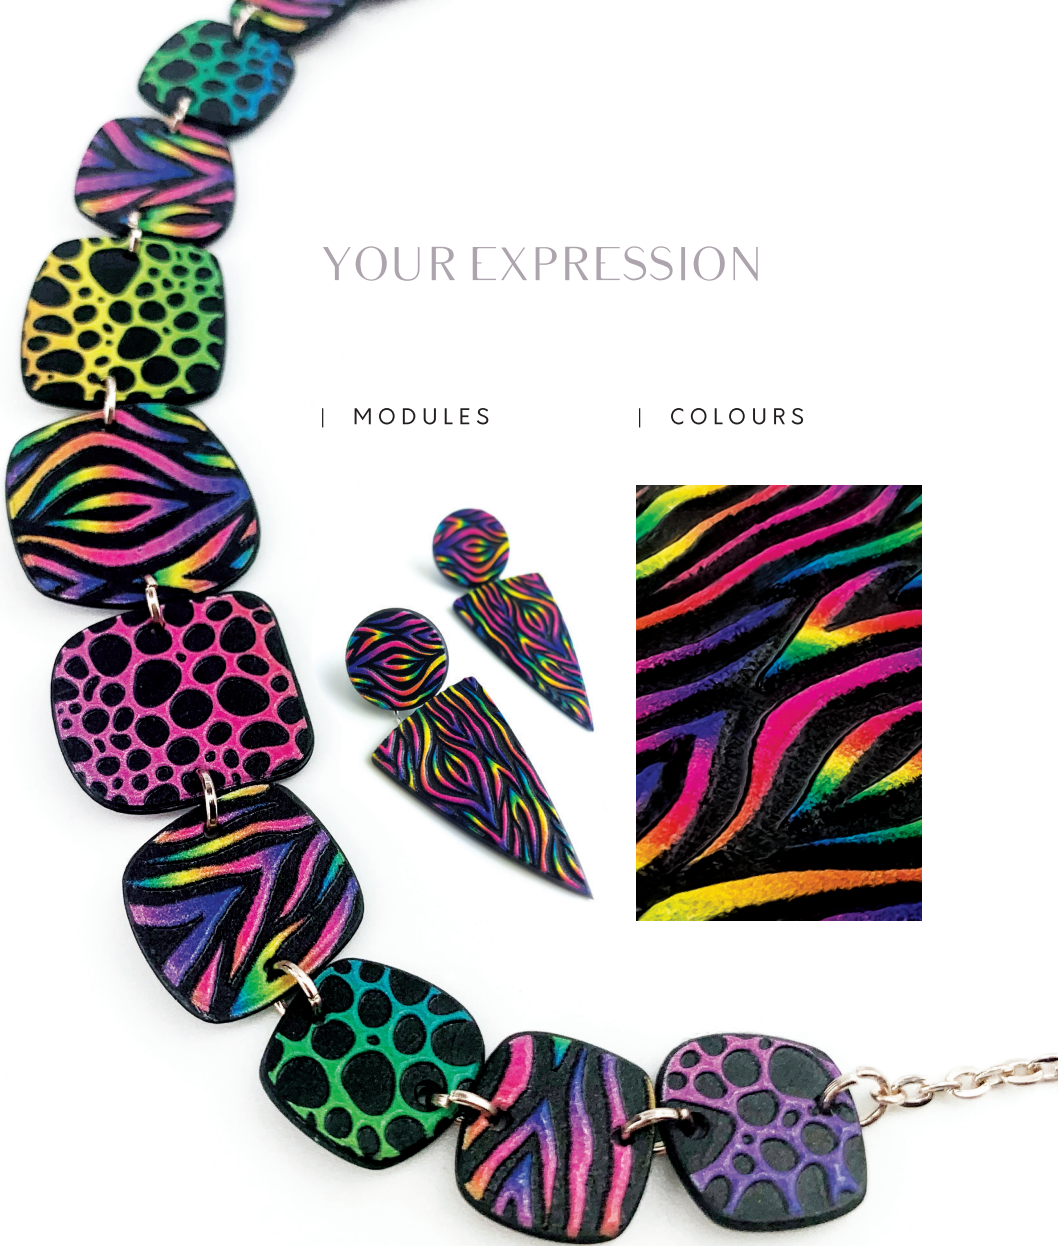

Modern STYLE

YOUR EXPRESSION

| MODULES

| COLOURS

Express Your uniqueness through lively, energetic colours, which against the backdrop of intense blackness shall paint the portrait of Your style in a manner that is indescribable using words.

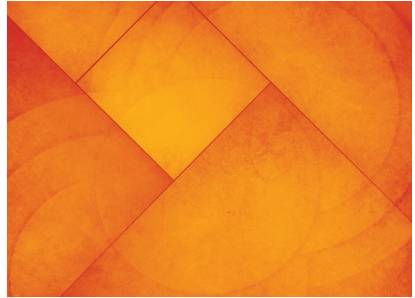

NATURE

IMITATIONS

*Our every project
is a reflection of
Your vision*

Classic STYLE

| COMPONENTS

Create jewelry out of components, create your own vision of nature.

| TEXTURE

Perfect imitation of nature, precise recreation of textures.

You are the designer here, and we will create for You works of art
that reflect Your unique soul.

Natural STYLE

A unique jewelry range inspired by the gentleness of plants, expressing the beauty of nature through meticulously developed components: delicate leaf structures, their curves and gentle bows.

Convex details

They add depth and perspective,
stress subtle curves and textures.

*The shapes
of nature*

FEEL IT

Every component of this unique collection inspires to tell
Your own story through touch and sensory experiences.

Avant-Garde STYLE

THIS IS YOUR STORY

| FOR THE SENSES Concave and convex patterns, tactile details, shall add unique character and depth to your jewelry.

DECORATIVE

Elegant STYLE

A pinch of magic

| FORMS

The individual components of jewelry are like a canvas, ready to take on any form that you would dream up.

| MICRODETAILS

Precise microdetails shall allow you to develop unique designs.

The pearl collection is a series of unique, shiny components,
in which microscopic particles are embedded
to create a magical effect.

Together, we can create personalised jewelry that will fully reflect your visions. All it takes is for you to share your idea or inspiration with us, and we will develop many customisation options for You.
